

## Dipslide Incubators

For Incubation of dipslides

Delivering simplicity and affordability through innovation.

The DTK range of incubators are designed to suit many applications.

For small applications we recommend the GNAT incubator which holds 2 dipslides and is preset to 30degC. This unit can also be used in a car when you purchase an optional 12v lead.

For medium applications use the DISCOVERY incubator which holds 10 dipslides and is highly portable. It has a built in temperature gauge and also works on multi-voltage so it can be used in many locations including a car.

Our most popular site based incubator for medium sized applications is the CULTURA incubator which holds 18 slides. It comes with tray and thermometer and is 240v supply only.

For medium to large applications use the CHALLENGER incubator which holds 25 slides. It has a built in temperature gauge and also works on multi-voltage so it can be used in many locations.

For large applications use the RANGER incubator which holds 45 slides. It has a built in temperature gauge and also works on multi-voltage so it can be used in many locations.

Incubator Order Codes :

Name	Code	Number of dips
Gnat	EDT057	2
Discovery	EDT055	10
Cultura	EDT059	18
Challenger	EDT052	25
Ranger	EDT093	45

2 slide - Gnat

10 slide - Discovery

18 slide - Cultura

25 slide - Challenger

45 slide - Ranger
