

Mini Direct Photometers

Single Range Photometers

Delivering simplicity and affordability through innovation.

The MiniDirect is a small, lightweight, handy photometer. It uses reagents in the form of liquids, tablets or powder packs and these maintain their stability over long periods and guarantee outstanding accuracy.

The unit has a real time clock and date and can store up to 16 readings.

The attractive design is characterised by its clear lines, its user-friendliness and ergonomics. Reading measurement values is simple thanks to the illuminated display on keypad and because it is waterproof, the MiniDirect can be used outdoors in any circumstances.

Each MiniDirect is delivered in a plastic case, including 9 V battery, 3 round vials with lid, reagents for 100 tests, spares, guarantee sheet, certificate and instruction manual.

Each photometer weighs only 200 gms and is compact at 170 x 65 x 45 mm.

Calibration Service

Each meter is supplied with a factory calibrated certificate which is valid for 12 months.

All types of meters can be sent to our laboratory for an annual calibration which is valid for 12 months.

Meter Ranges :

Aluminium	- 0.01 to 0.3 mg/l
Ammonia	- 0.02 to 1.0 mg/l
Chlorine	- 0.01 to 6.0 mg/l
Chlorine Dioxide	- 0.01 to 3.8 mg/l
Copper	- 0.02 to 1.0 mg/l
Cyanuric Acid	- 2 to 160 mg/l
Fluoride	- 0.05 to 2.0 mg/l
Iron	- 0.02 to 1.0 mg/l
Manganese	- 0.1 to 4 mg/l
Phosphate	- 0.1 to 4.0 mg/l
pH	- 6.5 to 8.4

MiniDirect 2 in 1 Meters :

Chlorine	- 0.01 to 6.0 mg/l
pH	- 6.5 to 8.4

MiniDirect 3 in 1 Meters :

Chlorine	- 0.01 to 6.0 mg/l
pH	- 6.5 to 8.4
Cyanuric Acid	- 2 to 160 mg/l
