## Borescope/Wireless Inspection Camera

### Pack, Ductwork & Calorifier Monitoring

Delivering simplicity and affordability through innovation.

We offer two affordable Borescopes.

The BR200 has a 17mm diameter camera head with a length of 1 meter which can be extended by use of up to 2 extension cables each of 0.96m.

The BR250 has a 9mm diameter camera head with a length of 0.9 meter which can also be extended by the use of 2 extension cables. However at the connection point the diameter of the extension cable is 17mm.

Both cameras have a detachable wireless colour display which can be viewed at 10m from the source and all images/video can be transferred to your PC via the microSD card (with included SD adaptor) or the USB cable (included) and viewed using Windows® Media Player.

The 9mm (BR250) and 17mm (BR200) cameras are waterproof and have 4 LED lamps with a dimmer to illuminate the viewed object with a glare free close up field of view.

The gooseneck cable retains its configured shape.

### Order options

BR200 - BR200 17mm diameter Borescope.

BR250 - BR250 9mm diameter Borescope.

BR200EXT - BR200 Borescope Extension Cable.

Each kit comes complete with 4 AA batteries, rechargeable display battery, microSD memory card with SD adaptor, USB cable, video interconnect cable, AC adaptor, magnetic base stand and hard case.

BR200 Borescope  
Extension Cable

The detachable wireless 3.5 colour TFT LCD screen can be viewed from a remote location up to 10m from the source.

A memory card is included for capturing JPEG images and video (AVI) with date time stamp.

9mm or 17mm diameter camera head with flexible gooseneck cable with 4 built in bright LED lights which easily illuminate dark areas.
